archshaders vol.4

2007

Almost all of us sometimes have that feeling of irritation after many hours working on perfect shaders. Water is too dry, glass is too matt and the leather looks much more like cotton. Now you can forget about it! We would like to present you new

library of 1000 professional shaders with about 850 textures. You will find here everything you need. Bricks, glass, wooden floor, stone paving and much more. With Archshaders you will be able to build scenes faster than before. Just pick and use.
